Siguiente

Conecta tu trabajo

Activa algunas de las mejores funciones de Jira conectando, entre otras cosas, los repositorios de código y los espacios de documentación de tu equipo.

Continuar

- Mostrar el StoryMap que se va a usar
- Definir qué es un backlog
- Definir qué es una épica
- Definir qué es una historia de usuario
- > Definir qué son criterios de aceptación
- > Definir qué son Definition of done

25%

VENUS

Venus has a beautiful name and is the second planet

2020

30%

MERCURY

Mercury is the closest planet and is the smallest one

2021

40%

MARS

Despite being red, Mars is actually a very cold place

2022

55%

JUPITER

Jupiter is a gas giant and the biggest one of them all

the Solar System

இ≣

Jupiter is a gas giant and the biggest one in the Solar System

2023

MERCURY

Mercury is the closest planet to the Sun in the Solar System

Despite being red, Mars is a cold place full of iron oxide dust

2022 VENUS

Venus has a beautiful name and is also the second planet

Mars

Despite being red, Mars is actually a cold place

Neptune

Neptune is the farthest planet from the Sun

Saturn

It's composed mostly of hydrogen and helium

Mercury

Mercury is the closest planet to the Sun

Jupiter

Jupiter is a gas giant and the biggest planet

Conceptos Básicos

Mercury

Mercury is the closest planet

Mars

Despite being red, Mars is cold

Venus

Venus has a beautiful name

Jupiter

Jupiter is the biggest planet

Saturn

Saturn is the ringed planet

Roadmap Infographics

Venus has a beautiful name and is the second planet from the Sun

Mercury is the closest planet to the Sun and the smallest of them all

Despite being red, Mars is actually a cold place full of iron oxide dust

Roadmap Infographics

Roadmap Infographics

Neptune

Neptune is the farthest planet from the Sun and the fourth-largest one

Venus

Venus has a beautiful name and is the second planet from the Sun

Jupiter

Jupiter is a gas giant and the biggest planet

Neptune

Neptune is the farthest planet from the Sun

Saturn

It's composed of hydrogen and also helium

Jupiter

Jupiter is a gas giant and the biggest planet in the Solar System

Despite being red, Mars is a cold place full of iron oxide dust

Venus has a beautiful name and is the second planet from the Sun

This gas giant is composed mostly of hydrogen and helium

Despite being red, Mars is a cold place full of iron oxide dust

Jupiter is a gas giant and the biggest planet in the Solar System

Roadmap Infographics 01 Venus 02 Venus is the second Saturn planet from the Sun 03 It's composed of hydrogen and helium **Jupiter** 04 Jupiter is a gas giant and the biggest planet Sun 05 The star at the center Mars of the Solar System 06 Despite being red, Mars is a cold place

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot, even hotter than Mercury, and its atmosphere is poisonous. It's the second-brightest natural object in the night sky after the Moon

Mars

Despite being red, Mars is a cold place

Mercury

Mercury is the closest planet to the Sun

Saturn

It's composed of hydrogen and also helium

Jupiter

Jupiter is a gas giant and the biggest planet

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot—even hotter than Mercury—and its atmosphere is extremely poisonous

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot, even hotter than Mercury, and its atmosphere is poisonous. It's the second-brightest natural object in the night sky after the Moon

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot—even hotter than Mercury—and its atmosphere is extremely poisonous

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot—even hotter than Mercury—and its atmosphere is extremely poisonous

Venus

Venus has a beautiful name

Mars

Despite being red, Mars is cold

Saturn

This is the ringed planet

Jupiter

Jupiter is the biggest planet

Mercury

It's the smallest planet

Instructions for use

In order to use this template, you must credit <u>Slidesgo</u> and <u>Freepik</u> in your final presentation and include links to both websites.

You are allowed to:

- Modify this template.
- Use it for both personal and commercial projects.

You are not allowed to:

- Sublicense, sell or rent any of Slidesgo Content (or a modified version of Slidesgo Content).
- Distribute Slidesgo Content unless it has been expressly authorized by Slidesgo.
- Include Slidesgo Content in an online or offline database or file.
- Offer Slidesgo templates (or modified versions of Slidesgo templates) for download.
- Acquire the copyright of Slidesgo Content.

For more information about editing slides, please read our FAQs or visit Slidesgo School: https://slidesgo.com/faqs and https://slidesgo.com/slidesgo-school

Infographics

You can add and edit some **infographics** to your presentation to present your data in a visual way.

- Choose your favourite infographic and insert it in your presentation using Ctrl C
 + Ctrl V or Cmd C + Cmd V in Mac.
- Select one of the parts and ungroup it by right-clicking and choosing "Ungroup".
- Change the color by clicking on the paint bucket.
- Then resize the element by clicking and dragging one of the square-shaped points of its bounding box (the cursor should look like a double-headed arrow).
 Remember to hold Shift while dragging to keep the proportions.
- Group the elements again by selecting them, right-clicking and choosing "Group".
- Repeat the steps above with the other parts and when you're done editing, copy the end result and paste it into your presentation.
- Remember to choose the "Keep source formatting" option so that it keeps the design. For more info, please visit Slidesgo School.
